SECURINESS – Your detection inspection expert.

We provide all clients with distinguishing features of metal inspection based on advanced technology, excellent products and professional service.

### SECURINESS EastImage Model 3-Series

#### Model V3000 Walk through metal detector

##### Technical characters

Detection Sensitivity	A pin can be detected
Sensitivity Level	Adjustable 255 levels sensitivity in each detecting zone; Effective sensitivity more than 200 levels in the whole unit
Detecting zone	4/8/16 detecting zones optional
Display Monitor	HB LCD Screen
Frequency	100 selectable frequency ranges
Response Speed	Adjustable response time: 0.3s、 1s、 2s、 3s、 4s、 5s; return to the detection state automatically when alarm over
Audio alarm	Adjustable 10 audio volume levels; Adjustable 10 tone levels
Light warning bar	Multi-zones HB LED light-warning-bar
Operating Mode	10 user-defined operating models presetting
Operation authorization	Password protection function, authorization using only
Counter	100% accurate counting on alarming time and pedestrian; Maximum displaying and storage numeric data is 1million
Anti-interference	No false alarms while metal objects moving 10mm far around the

equipment  
Factory default resetting      Quick reset Factory default

### Installation Requirements

Power Supply	AC100V~240V/50~60HZ; Power Consumption : 30W
Working Condition	Temperature : -20°C- +45 Humidity°C : 0~95% (no cond. of moisture)
Exterior Dimensions	2222mm (H) x 860mm (W) x 701mm (D)
Interior Dimensions	2050mm (H) x 720mm (W) x 701mm (D)
Weight	Approx.75kg

### Model V301 Hand held metal detector

#### Features

Exquisite appearance and with special design for airport and other high level applications  
Super high sensitivity that half of a pin can be detected  
Sound and light alarm adjustable sound volume  
High speed detection response

#### Specification

Detection sensitivity	Half of a pin can be detected
Sensitivity level	Adjustable levels: high, medium and low
Visual & audio alarm	Visual and audio alarm available, audio alarm ON/OFF
Dimension	410 mm (L) × 95mm (W) × 37mm (H)
Weight	350g
Power supply	9v battery or rechargeable battery
Working condition	Temperature -20°C~ 45°C
Humidity	0~95% (no condensation moisture)

#### Safety standard

Comply with international standard of Electrical Safety Regulation  
Comply with international standard of Electromagnetic Compatibility Regulation

### System solutions
